

The Montana Actors' Theatre
Young Professionals Program
INFORMATION SHEET

WHAT - Several students, currently enrolled in college or university programs or recent graduates, will be hired as MAT Interns to run two established programs: KidsMAT Children's Theatre Camps (grades K-8) and the MAT Youth Production (grades 6-12).

KIDSMAT—Week long acting camps in Havre and surrounding communities. Each camp runs Mon-Thur 9 am to 3 pm with a public performance on each Thursday in the evening. Training and guidance on camp operation will be provided prior to the first session! For some of the camps outside of Havre, residence in the community will be required (arranged for and provided by MAT), while others will require daily travel.

YOUTH PRODUCTION—Beginning in June, evening rehearsals for the full production of *The Wizard of Oz* will take place for an opening on August 6th. Technical support and set construction will be provided by MAT personnel. The show itself will run for six performances, August 6-8 and 13-15.

HOW IT WORKS—The team of interns will divide responsibilities after arrival in Havre, under the guidance of MAT Youth Programs Director, Angela Pratt. Working as a cohesive team is essential, but not all interns will be able to be at all camps/functions at the same time.

TIMELINE—The first KidsMAT camp begins mid June, with an Intern orientation/training scheduled a few days prior to that —arrival in early June is necessary.

COMPENSATION—MAT pays interns a generous stipend for all three months. MAT also provides housing for those who need it. All costs involved for production and KidsMAT (such as travelling to other communities) are covered by MAT.

INSURANCE—Interns must provide their own health insurance.

ADDITIONAL DUTIES—Some additional community and fundraising activities may be required, but KidsMAT and the Youth Production will always be given primary importance.

HOW TO APPLY—Fill out the online application at mtactors.com/yp.

APPLICATIONS ARE DUE BY APRIL 10TH, 2020!

The Montana Actor's Theatre holds a fantastic internship program. Through this, I encountered and augmented several skills that will serve me throughout my entire life and career. This has ultimately helped me in my preparation toward becoming an effective music educator. I am certain that future interns will benefit from this internship as much as I have in the years to come. - Scott H.—2016 Summer Intern
